

# SUNSHINE MAKERS

Based in London, Ontario, **Sunshine Makers** are an original R&B/neo-soul/hip-hop band. Their debut single, **Empathy**, was featured coast-to-coast on the Odario Williams hosted CBC radio show, *After Dark*, and their second single, **Coming up for Air**, debuted on the New Music Friday Canada Spotify Playlist. In February of 2023, they released an EP titled **A SIDE**. In June 2024, the band released their self-titled LP; which is supported by the release of side B singles: **Lovers to the Moon**, **Spin Around the World**, and **No Sympathy**—which have been played on CBC Radio One from Victoria to Charlottetown, and across the radio waves in France and the UK. The album is out now on all streaming platforms supported by the focus track **Come Back Around**.
